CHANCE MACHINE 40 DICE

The royal saga continues, this time with our brand-new, Chance Machine 40 Dice!

As the third edition of our jewel wonderland, Chance Machine 40 Dice features 5 reels, 4 rows, and 40 fixed paylines. Get the proper feel of royalty as our pure gold dice spin on the reels, embedded with colorful jewels that instantly grab attention.

There are two different Scatter symbols that count on any position on the reel - a glistening golden star and the prestigious theatre mask, ready to present themselves to the bravest, most dignified player.

The Crown dice acts like a Wild symbol, appearing on reels 2, 3, and 4, substituting for all symbols and expanding vertically to complete the combination. The Classic Risk Game is also available.

Do you have what it takes to impress our one and only crown? Spin your best moves inside Chance Machine 40 Dice to find out!
