GOLDEN BREW

Fresh craft beer and German sausages on the grill combined with salty pretzels… This can only mean one thing - Oktoberfest has finally arrived!

Golden Brew is a 5-reel 4-row slot with 50 fixed paylines. It welcomes all beer lovers to join the celebration of this amazing festival, where we can embrace the true spirit of Oktoberfest together, with a refreshing beer in one hand and a delicious snack in the other.

In the center of all the festivities, our cozy little brewery invites you to get a feel of the real Oktoberfest. So, grab a drink and collect as many custom Gold Coins as possible to truly taste the magic of traditional beer as it starts to pour from the barrels after the second coin appears below the reel. Flowing beer covers the entire reel transforming into a Wild symbol! Gold Coins appear in the main game only.

3 or more beer barrel Scatter symbols trigger Free Games with the Moving Wild feature. There can be 2, 3, or 4 Moving Wild symbols on the reels, regardless of the number of Scatter symbols that triggered Free Games. Wild appears during Beer Pub Bonus or Free Games and covers the whole reel, substitutes for all symbols except Scatter.

Stop by our traditional German brewery and let’s get a cold one in the name of Oktoberfest! It’s time to spend the evening at the pub!
