MOON TIGER

According to ancient Chinese Mythology, the White Tiger was born from a rare occurrence in the heavens. Inspired by the mythological White Tiger, our Moon Tiger symbolizes vigor, ambition, and courage. Will you find the Moon Tiger and persuade him to share his celestial influence to lead you to the legendary treasure in this new 5-reel, 3-row slot with 25 fixed paylines?

Wild Tiger substitutes for all symbols, except Scatter and Bonus, may appear stacked both in the main game and Free Games.

This slot game is packed with powerful features, including Free Games with big symbols, triggered by 3 or more Scatter symbols. In Free Games reels 2, 3 and 4 unite and spin as one central reel with big symbols, one big symbol equals 9 standard-size symbols of a kind. The big bonus symbol appearing in Free Games triggers the Full Moon Bonus Game. The Full Moon Bonus Game also can be triggered by 6 or more Bonus Symbols scattered on the reels during the main game. But if players are lucky enough, 5 or even less Bonus Symbols appearing on the reels may activate the Starfall to trigger the Bonus Game as per normal, helping the players to gain maximum strength before meeting the mythological tiger.

Now let’s enter deep into the jungle of the Bonus Game, where players can trigger 3 different jackpots up to 100x total bets, and the regular prize up to 20x total bets. Collecting all 15 Bonus symbols during the Bonus Game will result in them receiving the Ultra Jackpot prize – 1000x total bets!
