Mr. Jingle Bells

The North Pole is in chaos!

Mr. Jingle Bell, the mischievous bell, has stolen a bag of magical ornaments, hiding them throughout the North Pole. These ornaments are far from ordinary, serving for more than just decoration - they are also a source of incredible luck, enchanted to multiply your riches!

In our new 3-reel 3-row slot with 5 paylines, Mr. Jingle Bells boosts the winnings! When all the reels in the main game are covered with Christmas toys of a kind, the Jingle Bells Bonus Game is triggered.

At the beginning of the game, a player needs to guess under which bell our Mr. Jingle Bells is hiding. If the player guesses correctly, the winnings paid for the combination of Christmas toys that triggered the Bonus Game will be multiplied by the corresponding Multiplier, and an additional bell will appear on the screen. The 2 bells are equal to x2 Multiplier, 3 bells = x4, and 4 bells can increase the winnings up to x8. If the player guessed correctly, they take the winnings multiplied by one of the multipliers indicated above. If not – they take the winnings at the end of the Bonus Game and the game finishes.

Our mischievous bell has left little clues everywhere, before hiding out of sight. Will you help Santa Claus uncover Mr. Jingle Bells' hiding spot and recover the stolen ornaments in time for Christmas?
