PANDA STRIKE

Do you have what it takes to become a master?

Travel to our faraway town located deep in China, as you set out on a quest to conquer concentration and self-discipline. Panda Strike is our newest oriental-themed slot that features 5 reels, 4 rows, and 40 fixed paylines, introducing you to the true power of Chinese martial arts.

3 Yin Yang Scatters on the reels trigger Free Games – select one of 4 models: either more spins with the lower multiplier or fewer spins with a higher multiplier. Free Games can be won again during the feature.

Befriend the locals, listen to their legendary tales, and prepare for an awesome journey out of the quiet streets of this town. But first, you must choose your weapon carefully - you've got a long way to go! Make your way through the empty streets and charming nature until you reach the highest mountain, where our Wild Panda warrior will put your skills to the test.

Wild Panda substitutes for all symbols, except the Scatter, and multiplies the win x2 or x3. Wild Panda expands if it lands on the bottom, second, and third rows, and doesn't if it lands on the top row.

Reserved for the bravest of the brave, Panda Strike will awaken the warrior in you!
