TEMPLE OF RA

Travel deep into Ancient Egypt, where the almighty Ra is the center of all tales and myths.

If you follow the ancient stories, they will lead you to the legendary Temple of Ra, constructed entirely of gold and precious stones. Our new 6-reel, 5-row cascading reel slot with scattered payouts will transport you to a Golden Temple where no human has ever stepped foot, introducing you to treasures that have been lost for centuries.

All symbols are scattered symbols, and they count at any position – only their number matters! When enough symbols of a kind are present on the reels, they complete a winning combination (only the longest winning combination is paid), then disappear, and let the players complete the winning combination again. Bonus symbols appearing on the reels play at the end of the winning cascade if their number is enough.

In the Temple of Ra, you will collect God-created, exquisitely formed divine gemstones, and patiently wait for the sun God to make his appearance. Once you encounter Ra, he will lead you into his hidden treasure room, where even more surprises await! 4 or more Bonus Ra symbols trigger 15 Free Games with a multipliers accumulator. 3 or more Bonus Ra symbols during the feature trigger 5 more Free Games. With gold coins and priceless artifacts scattered over the chamber, players will finally uncover the hidden treasure of Ra!

The Multipliers up to x1000 may land on the reels both in the main game and Free Games and are applied only when a player hits a winning combination. They get activated at the end of the winning cascade, producing further tumbling. During the main game values of all the Multipliers presented on the reels by the end of the winning cascade, are added up and applied to this cascade winnings. During Free Games, all the activated Multipliers are accumulated to create the total multiplier. If the winning cascade ends with no multipliers on the reels, the total multiplier remains as is and doesn’t apply to this cascade winnings.

Players can double their winnings up to 10 times during the Classic Risk Game. A Bonus Pop is also available.

Can you decrypt the hieroglyphs and unlock the hidden treasure room buried deep in the Temple of Ra?
